August 2015

Guinness World Record
on a
Breeze S Scooter.

Andy McIntosh a retired UK Army Corporal completed a trek from John O'Groats to Land's End 1,000 miles in 16 days 8 hours. This epic achievement by Andy has beaten the current record, which stood at 24 days and 9 hours. Andy was an incredible 8 days 1 hour under the record.

Andy has successfully tackled a huge variety of terrain on his trusty TGA Breeze and experienced extreme weather during several periods of his journey. Andy's TGA scooter, which is the same model that won BBC TV's Top Gear extreme mobility scooter challenge, has regularly delivered a remarkable 30 miles on each set of batteries. It has also kept Andy comfortable and safe for extended periods of driving, commonly exceeding eight hours.
